

Splish Splash

We're escaping to the tropics and exploring the deep blue sea. Kids will have fun in the sun as they learn about sea animals, sea life and island life.

They will play with the sand, search for sea shells, play beach games and build class aquarium. A beach party will sizzle up the week as they go on a wild Hawaiian Luau adventure with live entertainment. Aloha! Its Hawaii at Smart Starts, toss on your lei and your grass skirt, we're going to get our hula on this week.

Dino Adventure

Journey back in time, and learn about our prehistoric friends, the dinosaurs. How did they evolve and why did they become extinct? Take part in

the process of evolution as campers will incubate fertilized eggs and watch them as they will hatch. Campers will hunt for fossils, dinosaurs and prehistoric artifacts.

Don't miss the fun!

Rumble in the Jungle

Our campers will discover many exciting things about the animals of the Jungle. They will dress up as explorers and learn about reptiles, mammals, amphibians, birds, fish, invertebrates and their habitats. A true wildlife experience awaits with a visit from real live animals.

In the Garden with Bugs

Campers will explore all aspects of gardening. From butterflies to worms, lady bugs to ant farms, they will explore all that lives in the garden. They will investigate how ants can carry up to 50 times their own weight and how caterpillars "magically" turn into butterflies.

They will also discover nature by planting seeds and watching them grow. They will learn the parts of the plant, the four elements of plant growth and enjoy collecting rocks and leaves from their nature walks.

A Blast from the Past

We're kickin' it old school this week as campers go back in time to celebrate with music, fashion and dance from the past. Anything goes this week from crazy hair do's to mix and matching your clothes. Be

on the look out for campers and camp staff as they dust off some old threads to showcase the 1980's, 1970's, 1960's, 1950's and the western frontier. Our cowboys and cowgirls are sure to have barrels of fun.

Bon Apetit

Our future chefs will batter up some fun this week and learn many important cooking concepts such as health and nutrition, table manners and etiquette, kitchen safety, and FUNamentals of cooking. They will learn to follow recipes and how to manipulate the ingredients by preparing easy-to-make snacks and desserts and sampling their very own yummy foods. They will spice up this week and have a cookout in tribute to July 4th. They will also enjoy a visit from a chef so don't forget to wear your apron and chef hat!

Mad Science Week

Get ready to get messy! Using a combination of math, science and art, kids will turn mess making into learning! They will dress like a scientist and create volcanoes, slime, mix colors, and tie dye their shirts. Their adventure continues as they fly to the moon and back and learn about the different planets, stars, sun, and even build a rocket ship and solar system.

Lights, Camera, Action!

Quiet on the set! This week will bring out the director, producer, actor, singer and dancer in all of us. Children will be introduced to the theatre experience using music, dance and creative games. Storytelling, creating their own musical instruments and performing in their own plays will surely foster their creativity. Campers will be taught to dance. Parents are sure to enjoy our Smart Starts Idol and Dancing with our Stars performances at the end of the week. Campers will be available for autographs after the show. That's a wrap!

Yeehaw! Life on the farm

Howdy! This week we will learn all about farm life. Kids will help build a farmhouse and learn about different farm animals, the sounds they make, the foods they eat and how to care for them. They will dress like a farmer, sing songs, make music using animal sounds, and play with lots of hay! A visit from the petting zoo will end this week with lots of excitement.

Ahoy There! Pirate & Princess party

Shiver me timbers! Pirates and princess galore. This week will be filled with treasure hunts and enchanted dreams. So get ready for a magical week of imaginary play. Come dressed as your favorite pirate or princess and join in as we create pirate flags and treasure maps, and be part of a treasure hunt and princess parade. Join Captain Hook on a pirate adventure with more games and fun. Come aboard if you dare!

Week of the Olympians

With the 2010 Winter Games just having finished, campers will experience Smart Starts very own version of the Olympic games. They will be representing different countries and participating in various competitive events. Campers will be going for the gold this week! They will learn the importance of teamwork while enhancing their skills of gymnastics, volleyball, baseball, soccer, football, basketball, and track and field. We will be sure to end camp with a big bang during our field day and closing awards ceremonies.
